

Child of Mine, Know This is meant to be uniquely yours!

Personalize this book with your own photos to make a treasured gift!

In the development phase of *Child of Mine, Know This*, the most common request from readers was for a way to put their own pictures in the book. They wanted their children to know this was a book **about** them, not just a book **for** them. Instead of leaving a blank space for your photo, we designed the book with mostly standard-sized photographs (5x7, 4x6, 3.5x5 and 2x3) so you can easily use double-sided tape to insert your own photos on any or every page, right on top of the photos that are printed in the book .

You can easily insert a 5x7 photo (or other standard size) into the book with no cropping. Once the picture is taped in, it's hard to tell that it's not original.

Original

With New Photos

Photo Selection: Choose your favorite photos and simply find similar-sized photos in the book to cover up with the ones you are placing. You can even put your own photo on the back cover — that one is 3.5x5.

Trimming: Trimming should not be necessary if you're using a standard-sized photo. But if you do need to trim your photo, make it slightly larger than the one you are covering up so the edges don't show.

Tape: Use acid-free double-sided tape to adhere the photo to the page. Glue is not recommended, as this could cause your pages to warp or crinkle.

Your Own Dedication: On page 3, cover up the author's dedication with your own photo and hand-write your own dedication.
